

Where Disruptive Technologies Thrive

Mission

Dioltas advises public and private clients on all facets of business strategy, planning, development, management, marketing, directorship, and obtaining access to capital markets in exchange for equity stakes in the companies and/or management fees. When a considerable gap in the marketplace is identified, Dioltas will also incubate or invest in a company in order to serve this market, create a unique solution for the identified market gap, and create new demand.
